

Horror House featured

Halloween events on tap

By REBECCA LIGON and MARIE SILLS Staff Writers

Peav Austin Association is hosting their second annual House of Horrors tonight and Friday night from 7 to 12 p.m.

The house is located on Mannings Lane, across from McCord's and Austin Peay's parking lots. Signs will be placed to direct visitors from Highway 22

"The money collected will be used for dorm im-provement and for charity purposes," William Edwards, purpident of the Aurite Deva president of the Austin Peay Hall Association, said. Admission is 25c for children under 13 and 50c for all over 13.

The horror house will feature a coffin room, a monster room, a mad scientist, a torture chamber, scene and a graveyard scene freshly dug graves with waiting for clammy bodies, according to Edwards.

according to Edwards. Tombstones have been donated by the Greenfield Monument Company and most are dated from around 1900, Edwards said

approve all funding for the University that comes from the state. Faculty raises this academic year aceraged only 2.5 per cent, chiefly because the legislature did not raise taxes this year.

going to have to be postponed this next year.'

Concert nets \$1100 profit; open law violations noted

Approximately \$1100 was made at the Dave Loggins and Rare Earth concert, which was marked by open violation of University and state laws, according to officials con-nected with the concert. "We didn't make any arrests, although there were a to comple that were subject

arrests, although there were a lot of people that were subject to arrest for smoking marijuana and having alcoholic beverages on University property," Ted Council, assistant director of Safety and Security, stated. He said that he didn't know

if the use of marijuana and alcohol was more prevalent at this concert than at previous ones, but the open use of it on stage made it more obvious. "It seems like they (the performing group) would drink most anything they'd pass up to them," Council said. "It puts us in a difficult situation." Council said he was surprised to discover that those who were smoking and drinking in front of the stage were UTM students and were not from other areas, as. originally believed.

Council said he did not care whether there werc or were not any more concerts if the type of behavior would occur

sometimes provided, is however. Cox explained that the concert contracts are sent to Knoxvillc to be approved before they are sent to the groups, and that the rider on alcohol is marked out at

Knoxville. The Homecoming concert contracts were not signed by the groups until the day of the show, Cox said. He said it was a possibility that there would not have been a concert unless the rider on alcohol had been met

"If we can get the contracts here in time and back to the groups in time for them to see that this rider has been scratched, I see no reason why the alcohoi should be provided," Cox stated. "Nobody is legally bound until we have the signed contract in

our hands." Various officials connected with Homecoming expressed pleasure that the event wort so well.

"I think everything went pretty smoothly," Mark Crenshaw, co-chairman of the flomecoming committee, stated

Page Two Voter registration drive a must for student rights

The proposed SGA voter registration drive, to be conducted to allow UTM students to vote in elections here while in school, offers the chance for increased student participation in local, state, and national elections

Being residents of the county for some nine months each year, students should be able to have a voice in how the area government is run. They should also be able to vote in state and national elections without going home The registration drive would belp in both areas.

It is undeniable that the students are a vital part of the economy of this city and county Without the students, there probably would not be over half as many businesses as there are now Student money is essential to the growth of this city

It is also undeniable that students have to obey city and county laws while here just as the other residents do. This is not unusual, but points out that the effects of local and county government on the students in school hcre

For these reasons, students should be able to vote in local elections if they so desire. They are not permanent residents, assuredly, but it is against the earliest governmental foundations to be forced to live somewhere for the better part of four years and not have a voice in the government Students too often are treated "non-persons" SGA should continue to ike push for this basic student right

Local registration would also encourage student participation in state and national elections Few students can afford to take the time to go home on a Tuesday to vote If students could vote here while in school it would not only save time and money, but also result in an increased student voter turnout

Such registration would do much to further the cause of higher education in this county, which has historically been able to exercise a great deal of control over the non-voting students. If students could vote, elected officials would be forced to take studeot input seriously

The recent ruling in Knoxville, in which a judge legalized the postcard registration of some 4000 UT students, shows that students are beginning to fight for their right to vote. Many students won't exercise the right, certainly, but the concerned ones should be able to do so.

It is a chance for college students, accused of being immature and irresponsible, to show that they have both the responsibility to help decide governmental policies and the maturity to accept the resulting benefits or problems.

Non-commuter parking plight deserves prompt attention

The parking plight on campus, though not as bad as students seem to think, is nonetheicss not as rosy as officials seem to think

The commuter situation is probably the best of all, with only 66 per cent of the spaces filled during the peak period, according to a recent survey. The lot by the University Center is filled during many hours, to be certain, but there remain plenty of spaces in the lot by the footbail field. Students have tended to wait until the iast instant to come on campus, then complained when the Center lot has no empty spaces. Better planning by students would ieave ampie time to park by the football field and still get to class in t0 minutes or less. Three years ago there wasn't even a lot by the **University** Center

The non-commuter situation is not that good, however. The survey showed a peak capacity in the non-commuter lots of 99 percent during some hour's, and this is entirely too high. Dorm residents arc paying rent to live on campus. and they should be able to have a place to park their cars

This has no doubt been caused by the in crease in the number of dorm students with cars. The director of Safety and Security said that there is a possibility of morc noncommuter parking, and this should be donc at the earliest possible time. Students should contact Safety and Security to encourage such construction.

The parking situation at University Courts

leaves much to be desired, also. There are enough places for the cars overail, but most of the spaces are in the far lot in the new section. Persons living in the older sections, such as F, find themselves with no places near their apartment during night hours.

The complex was planned for married coupies, most of whom would only have one car. Now with single students in some areas, there may be three cars for some apartments It has become hazardous to drive through the congested areas, much iess park. The situation should be studied now that single students live in the area to determine if there are sufficient spaces

The handling of the lot across from the Interfaith Center, recently changed from commuter to staff, was a further blow to commuter parkers. There was apparently little ' thought of the students who park there, and the change did not even go through the Traffic and Parking Authority Committee. The reason given, that Safety and Security had a ''little freedom" to do what they deemed necessary, implies that the committee is not really needed The committee should be abolished if there is no interaction with Safety and Security on such matters.

The parking situation on this campus is certainly better than most other campuses, but that is to be expected in a campus of this size. With more non-commuter parking and student input, however, things can get even better.

White wrong

on parking lot

To the Editor:

In response to Miss Franklin's article in last week's Pacer in which Mr. Ed Neil White defends the campus parking situation: post!! BOSH

The recent conversion from commuter to staff parking of the iot across from the Interfaith Center is a matter on which I feel Mr. White was misinformed. It was not "primarily nursing students that were parking there," as Mr. White assumed. If that were true, why did so many commuters want to park there that they received tickets for outside parking designated areas, and why, also, did two anonymous students take it upon them-selves to add two spaces to the lot late one night last year? Not only was the lot used by students at the Interfaith Center, but also others for whom it was convenient to many buildings, including Reed Haii, Browning Haii, the Sociology and Humanities Buildings, and the new HEN

prime example of the results of such action. The Academic Senate stamps its approval on many revisions in document prior to its being submitted to the Chancelior and finaliy to the Board of

Trustees for their final aporoval? If the Academic Senate does not insist on the minimum acceptable standards of the AAUP in the Faculty Handbooks on such matters as stated above, then the faculty

should demand to know why such has been allowed

happen. Again, many other such examples of possible coilective such examples of possible faculty input could be cited. grievance iaboratory space?

> This is no attempt to facuity whitewash the administration by saying that it has not made mistakes, even according to AAUP standards. On the

other hand, it is our opinion that the administration has made a continuing effort to correct violations when they have been brought to its attention. It is, in addition, just as much the responsibility of the facuity to insist on minimum standards as it is of

ommittee imput essentia

The success of the SGA plan to name outstanding students on a regular basis depends entirely on the amount of student input that the committee receives.

If the choices are left up to the committee, the selections will be only those that the committee itself knows. Although some of these will no doubt deserve the honor, it should not

degenerate into something in which the com mittee members nominate their friends.

Any students are able to nominate persons for the award, and they should seize the opportunity to do so. The honor is not that important, admittedly, but can become more so if deserving but unknown students have a chance

Building, if, as Mr. White reported, Safety and Security did not see much utilization of the lot by students last year, they obviously were not looking Perhaps a quick glance through files of tickcts given out last year in that lot might refresh their collective niemories. I do not share Mr White's sentiment that those 34 spaces (and not 22, as Mr. White aiicges) were in-

significant. Possibly in some larger cities where there are colleges with limiteo areas and limited potential expansion areas, this could be a problem. Martin, however, is not so congested that something could not be arranged cooperatively between the Traffic and Parking Authority Committee and Safety and Security - not soleiy by the Security

heirarchy Each student who purchases a UTM parking sticker ex-pects something for his money. If there is only one space for every t.8 cars, space for every t.8 cars, someone is obviously getting screwed Etalne Benderman.

AAUP officers

state views

To the Editor:

An open letter to the faculty from the Executive Council of

span of 75 years and have they set standards of behavior for the profession, and perhaps most important, they establish our own rules

and regulations for this institution. It is to this last point to which we wish to focus our attention. The AAUP Guidelines are

not, and were not, intended to be legai statutes, nor even the definitive answer to all of the problems of the faculty, students, or the administration of any institution. The national organization encourages any educational institution to develop its own guidelines, using the national guidelines as a modei, certainly, but also with con-sideration to the unique and peculiar characteristics of the institution in question.

If the timidity of a faculty is such that they do not insist on sound and accepted practices on such concerns as enumerated above, it is unrealistic to expect external agencie be it the AAUP, TEA, NEA, AFT, or what or whoever to come to its aid at any and every instance.

There are, on this campus, many organizations practices can such be developed Certainly, the Academic Senate and its various standing committees are important examples. Many others could be mentioned. The Facuity Itandbook is a

the university administration to grant these minimum standards. We ask for your assistance and support in working toward our own set of guidelines, passed by the Academic Senate, accepted by our Chancellor and the Board of Trustees which, at the minimum level of expectation meet or surpass othe national AAUP Guideiines.

hurts students

To the Editor: For two weeks The Pacer reader has had to consider the "plight" of the Film Hiatory class. In regard to this situation the Pacer editorial (16-23) finally made the sane comment that proper materials should be available before a course is offered to the paying students. The unavailability

materiais for courses which use hardware such as film projectors usually bespeaks poor departmentai management in planning and cheduling for such courses. The approval of new courses by the University Curriculum Committee does not automatically fund the

requires work

To the Editor:

This letter is about a small group of people that only a few really know about. That smail group of people ia the stage crew that works at all the concerts.

For those of you that don't know what the stage crew does, they build the stage, cover the stage (gym floor), set up the chairs tif they are used), help unload and load up the sound equipment, the band equipment, and the lighting equipment. The problem comes after

the concert for some of the members of the stage crew. It seems that they have a compulsion to let the other members of the crew down by leaving before the job is finished.

Friday night, some of the crew left as soon as the con-cert was over. Still more left after the trucks were unloaded. I was one of the iucky eight people left to tear down and put up the floor can vases. It took us about two hours. If the rest of the crew would have stayed, we could have done the job in haif the time, and those eight wouldn't have been completely worn out.

To the people that think they might want to work on the stage crew for the future concerts, I say you must think about what's involved before

The point is that no matter who is out there moving the team, as Smails was, be should have everyone'a support. It seems that all the ATO's wanted to see was their brother get on the field. This wasn't the first game this has happened in either, and it more than likely won't be the last.

students.

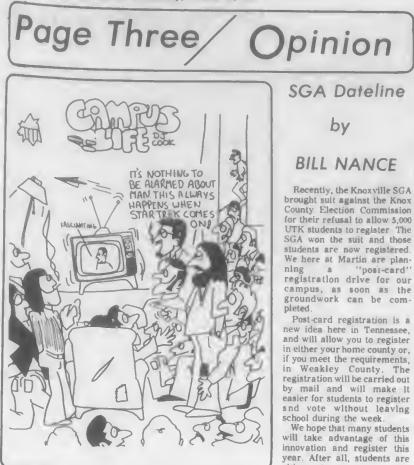

The next time you go to a game take a second look at the situation, if you're abie to, and ask yourself: is that the fault the quarterback or the offensive line?

Thanks again to you, ATO. You reaily showed your color this week. Mike Walker

Play production explained

Indians

Building towards the production on the play, IN-DIANS, to be given November 13, 14 and 15, 1s an enormous task Set construction, lighting, costume design and execution, all essential elements, have just about been completed; but the most important element, the building of the actors and actresses in their Individual roles is a never-ending job. Under the control of Vanguard Theatre director, Mr. William Snyder, thia monumental task started in

September with several group readings of the play. This is done to familiarize the actors with the play as a whole and to let Individuals find out for themselves what the author, Arthur Kopit, is trying to say about INDIANS. Actors about INDIANS. Actors portraying "real" people in this play are encouraged to further explore their roles by doing research into their individual character's life and the times in which he lived. Improvisations come next. These are exercises in which the actor create their own lines and movements. Very often these "made up" acenes do not occur in the play Itself but have to do with the lives of the characters outside the scenes shown on the stage.

not Negroes in abundance and

Improvisations may help the actors gain a clearer un-derstanding of the character he is playing, his relationship with other characters and, hopefully, of the play itself The actual blocking or movement of the actors, is done under the careful eye of the director, the Ideal compromise being what looks good to the careful eye of the director; the Ideal com-

Fine Arts Theatre Activity fee questioned by JIM BESHIRES Cynic

I have been told that someone asks this same question every year. Well, I've been here five quarters and I

haven't seen it in print so far. What I want to know is. Exactly what happens to the Student Activities Fee? Think Fifty-two hundred students pay twenty-two dollars each. That comes to \$114,400 per quarter. l, for one, don't feel that I

am getting my money's worth. Think what a concert a hun-dred thousand dollars could buy! And S.G.A. bitches about loosing a couple of thousand on unknown bands! But I don't want to get off on the S.G.A. So far, this year.

mented that "many of them

the only mistake I could see that they've made was booking the opening band at the Savoy Brown-Sugarloaf concert. Give 'em time.

Black Heritage--intertwined in American history

Blacks and the Bicentennial

History records that In the year t619, in the New England Colony of Jamestown, twenty Africans were brought into the port and sold. This cadre of blacks from Africs was purchased to help relieve Jamestown'a labor shortage.

Two generations later the house of Burgesses passed laws making them (the blacks) and the children born to them, slaves forever. The excuse for their action was that these blacks became Christians. A Virginia law declared "that Baptism of Slaves doth not exempt them from bondage.

Many blacks today will hold that bondage for them is as real today as it was then. That 200 years after the declaration and over t00 years after the Emancipation Proclamation blacks of America are not free. For this cause, then the controversy among blacka is whether any black should celebrate the bicentennial.

Probably Vernon Jordan, Jr. Executive Director of the National Urban League, said it best. "I believe the bicen-tennial is for all its glaring faults, presents us (blacks) with an opportunity to stress with an opportunity to stress the black heritage in the United States, and remind a forgetting nation of the vitally important role blacks have in in since the days when the wilderness reached the very shores of the Atlantic." In effect, he advocated participation, not celebration.

Whether blacks ought to participate or celebrate or neither is up to the individual. The purpose of this series will be to stress to the black heritage, personalities, and contribution of blacks to America and the hope that

pressed even earlier by a group referred to as the New York Negroes, t83t. "We do not believe that things will always continue the same. The time will come when the Declaration of Independence will be felt in the heart as well as uttered from the mouth and when the rights of all shall be properly acknowledged and appreciated God hasten that time. This Is our home and this is our country. Beneath its sod lies the bones of our fathers. For it, some of them fought,

born and here we will die." Blacks have fought and died in every way from the Revolution to Vletnam. They have fought in every branch of the army and have made their presence felt.

bled, and died. Here we were

On the snowy winter night of March 5, t770 a group of Boston patriots met a company of British soldiers, but this time the usual name calling ended in bloodshed. The leader of the crowd of Boston men was Chrispus Attucks, a tall runaway slave who had become a sea man. When Attucks urged the crowd forward, an order was given to fire and the Britiah muakets cut down Attucks and four other Bostonians. A runaway slave thus became the first martyr of the revolution.

This "Boston Massacre" was the first battle of the Revolution. Before the war for independence ended, 5,000 blacks would fight to help build the nation. There was Lemuel Haynes, one of several black minutemen who

A bit of optimism was exwas singled out for special commendation by Colonel William Prescott. "A Negro man named Salem Poor behaved like an experienced officer as well as an excellent soldier.' Colonel Prescott said.

> Blacks were in every battle of importance. A Hession soldier wrote "no regiment is to be seen in which there are

with John Paul Jones. By the war of t8t2, at least one out of every six members of the United States Navy was s Negro. Commodore Chauncy had about 50 blacks on board his shlp and com-

are among my best men." In the Battle of New among them are able-bodied, strong and brave fellows." Blacks served with Francis Marion ("the swamp fox") In the Carolinas, and In the Navy

against the charges of General Edward Pakenham'a British troops. Andrew Jackaon wrote an explanation of the

"I have always believed he fell the bullet of a free man of Orleans, under the command of Colonel Andrew Jackson, color who was a famous rifle shot." 500 black volunteers fought alongside Mississippi riflemen, Choctaw Indians, and Jean Lafitte's Pirates

It would be tedious and space-consuming to enumerate every battle and every soldier of color, but this eye witness account by Jackson of black participation should not go unnoticed

Concert crowd numbed

Critic at large

Almost everyone at the Rare Earth-Dave Loggins concert accemed stoned or in "Please Come To Boston," much less something as Insome way polluted. It's a good thing that most of the tricuate as the Scruggs tune. After a short intermission, audience was numbed. Here's Part 2 of the atrocities began. As 1 remembered Rare why

Dave Loggins went anonymous for most of his inept set until someone told Earth, they had not been an altogether inferior group and I the crowd that the singer they'd been listening to was a genuine Top 40 class vocalist. By that time nobody cared jazz too. anyway. Poor Dave. I felt a wave of pity wash over me as he groped to get the audien-ce'a attention. It's hard to get the audience's attention, though, when you're so bored cntertalner is

with your material you can't even get your own attention. Loggins kept trying to inject his act with a vitality that he just didn't have. He hooted and yelled "Allright" a couple of dozen times, but we who had the misfortune of being In our right minds knew that what we'd heard was far from alright.

Undefeated rodeo team to compete this weekend

By RICK NORTON

Special Assignments Editor UTM's undefeated fall season season rodeo team will compete in its flnal run of the season this weekend in Auburn, Alabama, according to Bill Hoy, rodeo team spokesma

The rodeo team, presently 2-0 for the season, will be competing against 13 teams, many of these nationally ranked.

"We'll be going into the spring season with everyone remembering the results of this particular rodeo," Hoy said. "As a result, we're hoping to do our best 'Wc've done real well in our

first two of the fall season so

Wonder

with success in this one, people will really be taking note of us in the spring season next year," he continued. Hoy cited the major threats in this weekend's meet to be Mississippi State, Arkansas State University at Beebe, and Auburn

"All of the teams in the rodco this weekend are going to be tough," he said, "but we're optimistic." UTM's victories this fail

have been one-sided in the margin between the first and second place teams. The first victory came in the Ozark Region rodco held at Southeastern Louisiana

University. Fifteen National Intercollegiate Rodeo

Association teams competed Association teams competed in the rodeo with UTM elaiming a total of 565 points, and Mississippi State the closest team with 320 points. Arkansas State University at Beebe was third with 215 points

According to Hoy, a point total of 565 was an "ex-ceptional" total for a win in collegiate competition. UTM's second victory came

at the University of Missouri in Columbia where the Pacers compiled a total of 380 first place points. Arkansas State University at Beebe was second with 380 points.

Approximately 13 colleges in the Ozark Region of the National Intercollegiate Rodco Association competed in the meet.

Hoy said the UTM Rodeo Team has recently received a \$300 scholarship from a potato chip sale sponsored by 1GA. "I just want to say thanks to

limit SGA activities

SGA has not been able to concentrate on governmental activities as much as they would like to due to being so involved in entertainment activities, according to Bill Nance, SGA secretary of communications.

"We've been so tied up doing the entertainment that we haven't been able to focus on government, " Nance said. He explained that this was necessary because the SGA was working under such a tight budget that the effort had to be made by the cabinet to prevent losing money on entertainment "There's a lot of things that

have been neglected by all eabinet members," Nance stated. "Whereas there are no excuses for it, there are some mitigating circumstances." Nance said SGA hopes to be able to concentrate more on

government next quarter.

"With the establishment of the entertainment committee, we hope that we will be able to turn much of the time con-suming work of entertainment over to the members of the committee and devote more of our time and energy to the governmental and representative aspects of our job," Nance stated.

He said the entertainment committee had done some work on the homecoming concert, but they were hoping it would take over more of the

responsibility. "We haven't been able to devote enough time to being the students' voice to the administration, and we haven't been able to devote enough time to student problems," Nance stated. "We feel there are some problems and we are looking into them right now."

for Fall Quarter, 1975 show an increase of more than 200 students over last year at this

time, according to Chancellor Larry T. McGehee. A total of 5212 students registered for graduate and undergraduate credit this fall as compared to 5003 in 1974. This is the highest enrollment in UTM's 49-year history.

The largest increase was in the number of beginning freshmen, 133 more than fall McGehee said he fclt the increase was due more to the 1974. The total number of undergraduates was up by 326 present economy than any other single factor. Many high students, while the number of graduate students dropped by school students are not finding jobs and are enrolling in the University as an alternative to **BSU** feeds unemployment, he stated.

"I believe a number of high school seniors are aware of another fact that was brought out by the economic recession," he said. "People with college degrees tend to out

UTM student counselors CHARLES MARKET plan questions for Boling

By RICK NORTON

Special Assignments Editor Steve Cox, SGA president, has announced the main questions to be presented to Dr. Edward Boling, president of the UT system, when he and two other student counselors meet with Boling in Knoxville on November 3.

Cox. along with Alan Wolfe and Jane Ragland, are the three student counselors representing UTM at the statewide college assemblage where Boling will answer questions concerning UT system policy

The Inter-Hall Council has

proposed the purchase of a change machine for one of the

cording to Don Acuff, IHC

The proposal was voted on and passed in Tuesday's meeting where it was presented to Earl Wright,

assistant director of housing. "We've acted on this now,"

Acuff said. "It's now up to Housing to act on this proposal

because they are the ones who are footing the bill."

If Housing can find a machine for an appropriate

price, the machine will be placed in one of the dor-

campus dormitories.

president

One of the questions from the UTM delegation will be the reason or reasons why UTM has the highest tuition among public institutions in Tenessee "I've heard that this school

"Twe heard that this school has got the highest tuition in Tennessee among public schools," Cox said "We want to know why There are so many factors concerning tuition we don't know for contain who and know for certain why our tuition is so high. This is what we want to find out '

placed in a dorm for the student's convenience.

IHC also approved a quarterly dormitory award to

be given to the dorm with the highest academic average at

"This will be a rotating trophy," Acuff explained. "Each dorm that wins the trophy will be allowed to keep it for the duration of the collowing quarter if a dorm

following quarter. If a dorm wins the trophy for three

quarters in a row, it will be able to keep the trophy per-

manently." The first trophy will be presented at the end of this

The second main question to be asked will be directed to

Dr Joe Johnson, executive vice-president to the UT system This question will be, What is the prospect of higher education in the legislature as far as funding is concerned?"

"Dr Johnson is sort of a righthand man to Dr Boling," Cox said "He's the one who makes a lot of trips to the state capitol because this is where the majority of his responsibility lies." Cox explained that the third

main question was similar in nature to the second question but that it did have its own distinction. The third question will also be directed to Johnson, although Boling will

be there for comments and additive information. These questions were

"We used to have about as inany styles represented as we had people." Jim Beshires, president, said. "When we'd work out, everybody used techniques from their original style. I guess it looked like it was all pretty pn-coordinated."

Boshires said that John Leoper was the only qualified faculty advisor they could find in this particular area of the organization. He continued by saying that now the group has four red beits who are qualified to teach lower ranks brown, green, and white). The style used by the club.

according to Leeper, is Chung Moo Kwan Tae Kwan Do.

Moo Kwan means 'way of the center.' Everything we throw is from the center, to the center.

located in the center of the body," he continued. "This is hard style, using straight line techniques, as opposed to a soft style, using circular techniques

Leeper stated that the style was orginated by Master Chung in Michigan. It's an American style, utilizing American techniques and incorporating the ancient methods.

'Coolies' top 'Duckers' for intramural grid title

By RICK NORTON Special Assignments Editor

Fleetwood Cooiies defeated the Duckers 14-0 Tuesday afternoon to cilnch the championship in the intramurai football tournament

nament. "Although we scored twice to win the game, a lot of credit should be given to our defense," Jimmy Foust, Coolies representative, said. "They didn't give up a single touchdown in five games."

"The Coolies played real good footbail," Tim Car-nahan, Ducker captain, said halftime after a Ducker touchdown in the first haif had been called back due to an illegal block. Late in the second half breaks "I think Intramurals is one of the best activities on this campus," he continued. "A lot the Coolles hit the scoreboard with a five-yard touchdown pass from quarterback Dane Cole to Stan Bartiett With a of people really get emotional about the games. The people get upset when they iose and are happy when they win."

6-0 lead the Coolies scored again, and again it was a five-yard pass from Cole to Bartelt. The two point conversion was good off a pass from Cole to Jeff Roberts

Volleyball finals set for Monday evening

and fans

The Pacer, Martin, Tennessee, Thursday, October 30, 1975

The championship match in the Open Voiieyball Tour-nament for Women will be played Monday night at 6:00 in the Old Gym, according to Bettye Giles, director of women's athletics.

In late round action this past nday night the Dirty Birds Monoay night the Dirty Birds defeated Hairy Legs, 2B's Best was beaten by the Sockers, and the Bouncers. defeated B.S.U. in matches Tuesday night the Dirty Birds met the I-B Bumble B's while the Sockers plaued the Bouncers.

game," Ernest Gibson, director of men's intramurals, said. "We'll have this tour-

nament again next year and

hopefuliy with a new, per-manent footbail field."

Gibson also expressed thanks to all the participating teams

Red Angels. Giles also reported that sorority volleyball would begin on the same night as the championship match in the open tournament. The mat-ches would begin at 7:00 with six sororities in action. Delta Sigma Theta will meet Alpha Kappa Alpha, Zeta Tau Alpha wili meet Chi Omega, Alpha Omicron Pi will battle Sigma Kappa, while Alpha Delta Pi has drawn a first round bye.

The championship match for the sorority tournament is scheduled for November 12.

THE **SCORESHEET** *•*

SPORTS PERSPECTIVE

SPORTS PERSPECTIVE By Warren L. Ector Students of UTM-can you honestly and proudly state that you support your football team? I say no! Last Saturday afternoon, the Pacers were defeated by Delta State University, 13-3. The Statesmen reached this score with a little more than ten minutes to play in the game. At this time, a strange thing occurred. The near capacity crowd that had been so enthusiastic throughout the game began to stream toward the avits as if an excustion had been ordered. Yes toward the exits as if an evacuation had been ordered. Yes, this Homecoming crowd threw in the towel and called It quits. Delta State did not score again, but this was due to the display of guts on the part of the Pacers.

How anyone can assume that a football game is over when there is only a ten-point spread with ten minutes to play is beyond my comprehension. Anything can happen in a foot-ball game as shown by the 1974 Southern California-Notre Dame game. Notre Dame entered the game with the best defense in the nation and, unaccustomed to losing large leads, jumped out to a 24-0 lead. Therefore, it would have been easy for the 90,000 fans to leave, but they didn't and USC scored four touchdowns in the less than seven minutes to take a 25-24 lead. In ail, USC scored 35 points in the third quarter and went on to win 55-24! Certainly with ten minutes to play, a ten-point deficit ls much easier to overcome. However, if our great "fans" have no faith in their team, then it is dlfficult for the team to have confidence in themselves

players look at the stands and what do they see? They see their "fans" deserting them? I must say that you don't deserve to have this team representing you because you don't represent them. Look at the roster: 9 seniors, 14 juniors, 15 sophomores, 22 freshman; then look at the starting lineup: 22 seniors, 8 juniors, 5 sophomores, and 7 freshman. No matter how good a player may be, there is no way that a team as young as ours can do out and win every game. However, this is exactly what you expect of them. This team needs time to develop, even though they have performed magnificiently all season. But the people demand perfection and the only thing you see is a 1-5 record. Automatically, the assumption of an inferior football

team is registered. Students of UTM, I'm damned proud of my football team,

BE TREATED **BEER QUALITY** "Tae Kwan Do is Korean Karate," Leeper said. "Chung **PABST Blue Ribbon**

'All vital target areas are

Leeper cited that traditionally Oriental fighters reiy on a strong, iow stance and techniques are performed with prefection in mind. Americans, on the other hand, move when they fight. He cited a boxer's footwork as an cxample. "What Chung Moo Kwan

does is let the fighter move about," he explained. Instead of just squaring off and swapping beautiful blows, we move. And we strike on the move. It's closer to the real thing. In a fight, pretty moves don't matter "As the late Bruce Lee

would say, 'use whatever works,' he continued. "We don't conform. I think the most ironic thing in the world would be a tombstone that reads, 'His form was fantastic

The club still uses the balletlike moves, according to Leeper, but they use them in kata (forms) to build strength and grace. None of the true art is lost

Beshires emphasized the fact that the club members this year are really dedicated. He explained this as being true because a person had to have at least three month's experience as a prerequisite to membership to the club. Inexperienced personnel or those with other styles are given time to adjust to Chung Moo Kwan. A person without this particular training can meet the requirements by taking Leeper's beginning karate class. The Society this year, ac-

cording to Beshires, is more competition-oriented. The twenty-eight members train to competition-oriented. fight twice a week. Beshires said that all the club lacked as of the present time was safety equipment, and they could then begin full-

contact sparring. He cited that most of the group was for fullcontact sparring, but if a member did not want to fight then he would not be forced to

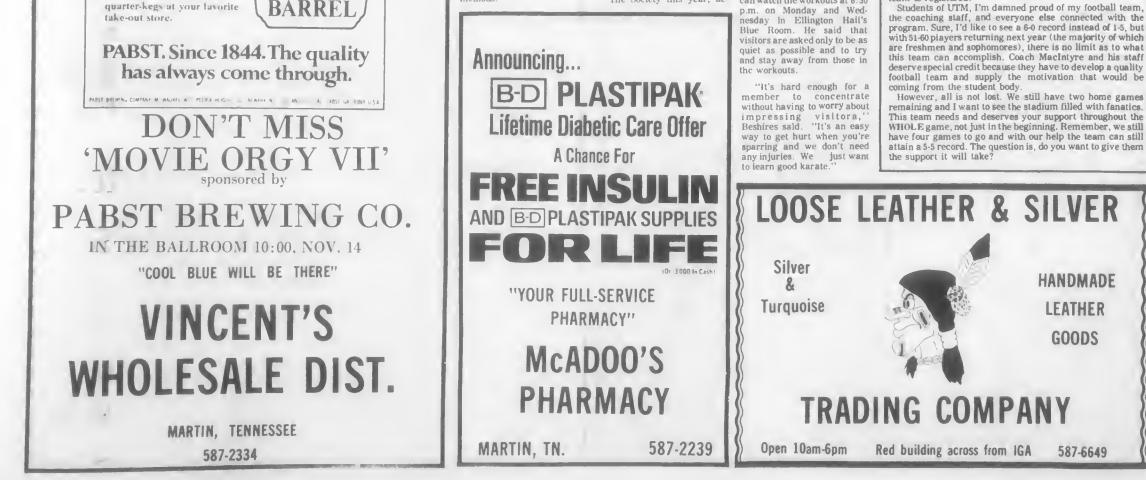

"That's another thing," "That's another thing," Beshires stated. "Because we don't have a single Sensei (teacher), we're all equals in the club. Any member can sit out, or even bow out and leave, whenever he wants to. Of course, we would prefer they work as hard as they can but like Isaid they don't have to." like I said, they don't have to."

The UTM Karate Club will have its first actual competition in the near future as, for the first time, they will be abie to compete against other organizations.

"Murray State is having a tournament in mid-November," Randy Sandefer, another red belt and in-structor, said. "It's supposed to be full-contact, and If we only have them to beat, we should just about walk off with everything. We have some really good fighters.

"We'd like to have everybody that can to come and watch us win," he con-tinued. "Karate is a sport, just like football, and it's a lot more individual.

Sandefer said that anyone can watch the workouts at 6:30 p.m. on Monday and Wed-

Volleyballers earn split, await Tigerettes Tuesday

By RICK NORTON Special Assignments Editor

The Lady Pacer Volleyball Team split in a dual match last night in Jackson.

The Pacers began the night with a loss to Lambuth Collegei in two straight games 15-4 and 15-9. Following the loss to Lambuth the Pacers then downed Austin Peay State University in two straight games 15-6 and 15-8. "We used twelve people in

these matches," head coach Lucla Jones, said. "We've got twelve girla who are all equal in talent.

"We have the ability to be a great team," she added. In a match played last Wednesday night in Clarksville, Tenn., the Pacers downed Austin Peay State University in three full games 15-8, 14-16, and 17-15. The Pacers were scheduled to play Peabody. College, but Peabody did not arrive for the match. Only APSU and UTM competed in what was scheduled to be a dual match. In the Memphis State Invitational Volleyball Tournament last weekend the Jones

Pacers, according to Coach Jones played extremely "poorly." UTM opened the tour-nament successfully, upenthe University ding of Alabama in the first game of a "pool" competition 16-14, but then fell in the second game 15-2; however, no third game was played for this was "pool" competition where the team with the most points after two games won the match. Alabama won the overall scoring 29-18.

"We played a great first ame," Jones said. "After game. that, though, we just couldn't get anything to work. Both our offense and defense fell apart. 'Alabama has a really good "They've got very good height, plus they have ex-cellent setters as well as

lockers

mount of points determined the victor. She had been under the impression that "pool" competition still consisted of a best two-out-of-three com-

petition. "We were doing real well and then they told us this was not a match, but "pool" competition where the total number of points decided the winner," Jones explained. "It somehow just took us by surprise and we couldn't do anything after that."

The Pacers' second game was against Northwestern State University of Louislana. The Pacers were downed in two straight games, 15-9 and 15-8.

"Northwestern was really a fine team," she said. "They went on to the championship bracket of the tournament and did real well. Following the Northwestern

game, the Pacers next met the University 'of Mississippi] where they fell in two games 16-14 and 15-8. Winless in "pool" com-

petition, the Pacers then went into a single elimination tourney in the lower bracket of the tournament. In their first game the Lady

Pacers met Austin Peay State University and won their first match of the weekend in two straight games 15-6 and 15-6. They next met Memphis State where they played for their final match of the weekend, losing to the Tigerettes 15-11 and 15-3. 'In this tournament we

were simply caught out of position," Jones said. "T'.e girls were tired but also we just didn't play well as a team. Just don't play wen as a team. The girls weren't getting into position to play the ball. Instead of moving, we reached for the ball. We couldn't play this kind of volleyball and expect to win against teams of this calibar." this caliber.'

Jones also cited that injurjes had played a big role in the performance of the team in the aspect that different players had been playing in

healthy girls to get too tired, but also, I didn't want to risk any unnecessary injuries. The Pacers had been scheduled to play in the West

Georgia Round Robin Tournament this weekend but it has been canceled.

"We're actually glad this tournament has been can-celed," she said. "This will give the girls a much needed rest. It will be the first weekend they've had off aince September 3.

"We've already played thirty-six games and we're not much past mid-season," she continued. "This is more than we played all of last year

Following games against Memphis State and Lambuth in early November, the Lady Pacers will be entering the state tournament.

'We're going to be ready for the state tournament," she said." "We haven't been working real hard in the practices due to our injuries but the team is now healthy Everyone is ready to go and we're going to work ourselves to death to get ready for this tourney.

With a 23-13 record, Jones stated that the depth on the team has been the biggest asset thus far in the season. She is presently using ten players regularly who have seen action in virtually every game of the season. These Grove, Tn. Starr Hatler from Martin is the only junior. game of the scason. These players include Julia Brun-dige, Starr Hatter, Laura Hulse, Jan Long, Marlene Shackleton, Rima Block Pam Childress, Anita Reilly, Beth Spence, and Elaine

Alrutz. "I think we've got an ex-cellent team," she said. "A lot of people can tell you this. When we lose I just wish we'd play good. Lately, we've not been playing well at all in our losses.

The Pacers will next play Tuesday in Memphis against Memphis State University.

'Close' game expected

Pacers to battle Gov's

By WARREN ECTOR Staff Writer The Pacers, who battled Delta State on even terms until the visitors scored a fourth quarter touchdown for a 13-3 victory, will travel to Clarksville this week to play

neighboring Austin Peay in a non-conference game. "This game with Austin Peay is going to really be a ctose game," head coach George MacIntyre said "We haven't been able to generate a scoring punch all season and we need to work on our kicking game if we expect to snap out of this thing

With a Homecoming crowd of 7,100 watching the contest on a cool, overcast afternoon, the Pacers performed as well as a team can play without winning. Early in the game, the Statesmen dominated. mounting three drives that the UTM defense stopped by forcing key turnovers. On a fourth and goal, cornerback Gary Guthrie intercepted in the end zone to halt the first drive. A Clay Blalack fumble recovery and a David Williams pass interception put abrupt ends to the other two. At this time, quarterback Alvin Smalls kicked the of-

fense into gear, driving the leam sixty-five yards in nine plays which was capped by a 33-yard Mickey Hamilton field goal. The score came with only six seconds remaining in the half to give the Pacers a 3-0lead over one of the strongest teams in the Gulf South Conference.

After an exchange of punts to open a final thirty minutes of play, Mark Carroll in-tercepted to stop another Delta State drive. However, UTM was forced to punt, and the Statesmen quickly moved the ball for a first down at the Pacer five. The defense once again rose to the oceasion to prevent the visitors from crossing the goal line, although John Crawford tied the game with a 22-yard field goal The Pacers retaliated by moving the ball to the DSU twenty-eight where a fumble turned the ball over. The Statesmen punched downfield to the UTM ten at which time John Crawford kicked his

second field goal, a 28-yarder to give his team a 6-3 lead at the end of three quarters. A key fumble by "Sweet-ake" Williams allowed the cake' visitors to attaln a first down
